**Transtrend B.V., Rotterdam, The Netherlands**Research Analyst, *January 2009 – February 2014*.

The work I have done results in 5 years of experience in and knowledge about:

- Data analysis, software development and designing, building and evaluating computational applications, both independently and as part of the Operations team, to support our Back Office and Trading team. My personal projects included:
  - o Development of software and administration for:
    - Daily margin reconciliation;
    - Monthly interest reconciliation.
  - o Building up administration and trading application for trading and reconciliation of Treasury Bills.
- External communication with financial institutions all over the world;
- Finance and alternative investments (futures);
- Developing new skills in a fast, efficient and flexible way.

**Amsterdam FM Radio, Amsterdam, The Netherlands**News Reader, *November 2015 – March 2016*.

- Writing and presenting news bulletins

**Theater Adhoc, Amsterdam, The Netherlands**Assistant Production & Scientific Research, *May 2007 – December 2008*.

I gained experience in:

- Public Relations;
- Organizing and introducing theatre shows;
- Doing a research project about the mutual inspiration between artists and scientists that included the conduction of a survey of audience members, using SPSS for data analysis.
